

# Error code 30169-22 when installing Office

OneNote 2016, Office 2016, Excel 2016, Word 2016, Outlook 2016, More...

If you see this error when you install Office, restarting your device might fix the problem. If that doesn't work, use the easy fix tool to completely remove Office from your device, and then restart the install.

## Uninstall and reinstall Office

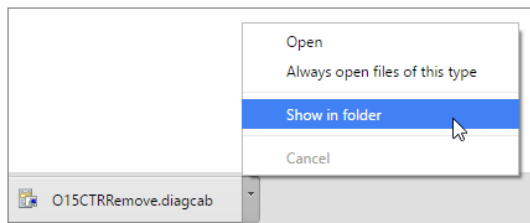

1. Click this easy fix button to uninstall Office.

2. For the remaining steps showing how to save and use the easy fix, select your browser from the drop-down list below:

- a. In the lower-left corner select the **o15CTRRemove** file and from the drop down, select **Show in folder**.

Double-click the download, **o15CTRRemove** to run the easy fix tool.

- b. The Uninstall Microsoft Office wizard launches. Select **Next** and follow the prompts.
- c. When you see the **Uninstallation successful** screen, follow the prompt to restart your computer for the changes to take effect. Select **Next**.
- d. Restart your computer and then try installing Office again.

### Install Office

Select the steps for the version you want to install.

VERSION	INSTALL STEPS
<b>Office 365</b> <b>Office 2019</b>	<a href="#">Download and install or reinstall Office on your PC</a>
<b>Office 2016</b> <b>Office 2013</b>	<a href="#">Download and install or reinstall Office 2016 or Office 2013.</a>
